## KEY SKILLS

- Communication and collaboration
- Proactive in problem solving providing effective solutions
- Focused and driven to complete tasks to tight deadlines without compromising quality and standards
- Multi-tasking and organisation

## EMPLOYMENT HISTORY

**Digital Developer, Global** March 2021 - Present

Currently employed as a Creative Front-End Digital Developer at Global

- Developing co-branded bespoke pages between the UK's biggest radio brands and well-known multi-national, high profile clients
- Creating pixel perfect pages from designs to a tight deadline, using HTML, SCSS, JavaScript, jQuery, GSAP and PHP
- Working with designers to enhance pages and utilise images using Sketch and Photoshop
- Updating the template code used for the pages to provide all developers in the team with more interactive features to use for animations, games and quizzes
- Collaborating with members of the development team to create more complex pages for clients requiring moderation tools for contestants
- Using JavaScript to create and update custom game mechanics, carousels and animations, utilising GSAP
- Managing database changes when using complex competition entry mechanics
- Tracking, analysing, and reporting data on digital marketing campaign performance
- Effectively managing multiple campaigns, working to tight deadlines
- Learning React in order to create a new competition template and enhance page functionality
